

FENNOVOIMA

Building public acceptance for Hanhikivi 1

Rosatom – Rossotrudnichestvo Round Table
“Public Acceptance of Nuclear Technologies and the Rosatom Education Mission”

Minna Forsström
Project Director
1 June 2016

Local Reaction When Pyhäjoki Was Chosen in 2011

Local Office at Pyhäjoki

- Located in the center of the municipality
- Open five days a week to everyone
- Part of the local community
- Hundreds of events organized over the years

Sponsorship Is Part of the Presence

- Main focus in activities in the vicinity of Pyhäjoki
- In sports sponsorship, the main focus team sports, children and young people
- Also support for culture and education

Local Support Is the Cornerstone for Public Acceptance

- Local support is the foundation of public acceptance
- Finnish Decision-in-Process process: the municipality has the right to veto against new nuclear facilities
- Long-term and active cooperation with municipalities, businesses, organisations and educational facilities in the Pyhäjoki region
- In addition, close relations with stakeholders at the national level
- A wide range of stakeholders give their strong support, as FH1 is perceived as a common project
- The media is also an important stakeholder group

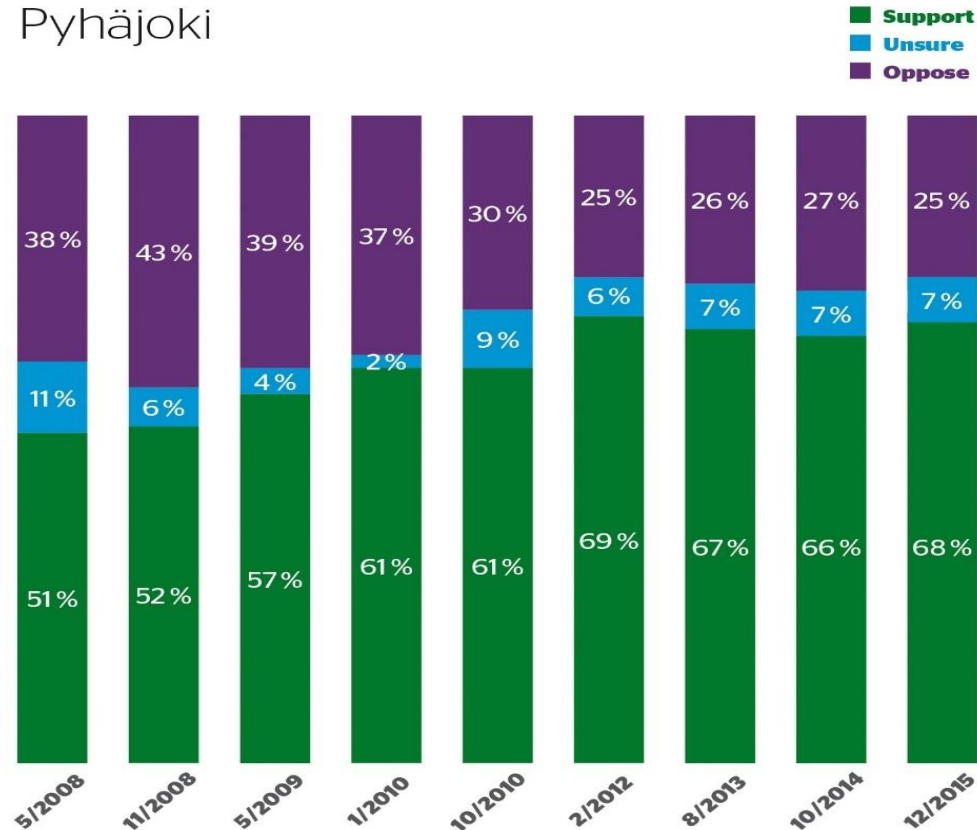

Continuous Presence and Footwork

Steady Support throughout the Years

What is your opinion about Fennovoima building a nuclear power plant to Pyhäjoki?

Pyhäjoki

Thank You!
